- Based on proven education research from the UCLA School of Education, this interactive workshop shares the secrets of master presenters in how to increase your effectiveness in delivering captivating speeches and presentations.
- Attendees will be provided with an overview of this model and then participate in break out groups turning theory into actual practice.
- The group will leave with detailed handouts to reinforce the learning and make the application of this session easily translatable to making your next presentation more creative and memorable.

#### Merry Neitlich, Founding Partner, Extreme Marketing
